knowledge skills motivation

Welcome to Kindergarten . . .

Welcome everyone to the 2010-'11 school year. We as staff are excited to start this new year with dedication and enthusiasm. Our first month will be dedicated to helping all the new students acclimate to their new surroundings and familiarize themselves to their classmates, learn games, rules and the routines within our program.

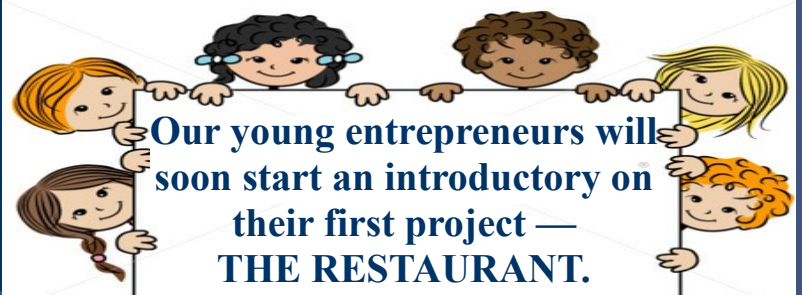

Entering the Young Entrepreneur School - Kindergarten level - is an exciting time for every child. Moving from the home environment to the school environment is a big step. Both parents and teachers want this transition to be as smooth as possible. School boards provide a variety of experiences to assist all children in their early learning.

The teacher welcomes the children into the program and gently introduces them to the Kindergarten environment. Orientations help everyone feel at ease. The children are given time to become acquainted with each other and with classroom activities and materials. Gradually, children will gain a sense of belonging because they know the routines and school layout.

REMINDERS

- The school day starts at 7:45 am and ends at 1pm.
- Please pay your school fees in a timely manner.
- After-school programs have started during the second week of October.
- School uniforms are available as of October 2.
- We will be celebrating World Teachers Day on October 5.
- We will also be celebrating the United Nations day on October 24. Parents are encouraged to participate in this event.
- Our first field trip for this year will take place on October 31. More information will be provided.

Please log on to the school's website www.yes.sa.com for more information.

Kidsview

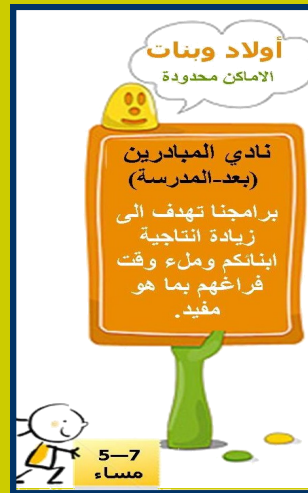

Communication is critical during this first year. The teacher may use newsletters, notes and telephone calls to share information with parents. Parents can also share their children's concerns and let the teacher know of any changes at home that might affect a child's behavior and progress in Kindergarten.

We encourage parents to log on to the [Class Work page](#) on the school's website in order to receive important information about the student's academic progress.

Students who participate in after-school programs are more engaged in and have a better attitude about learning, perform better academically, and enjoy an increased sense of accomplishment, competence, and self-esteem. Our After-school club is open for kids age 3 - 12 (boys & girls).

[Activities include homework club, robot design, room redecoration, Quran, swimming and many more....](#)

Please call administration if you are interested in joining the afterschool program at 6127670 ext.103.

PICK-UP TIMING at 1pm

Be aware that pick-up and drop-off promptness is important, but we are flexible. We allow a 15 minute grace period at pick-up time, as weather and traffic can sometimes interfere with our schedules.

Give us a call and let us know if there are any challenges, and talk to the administrator if there is a regular challenge that needs to be addressed and solutions will be managed on an individual basis.
